Contract announcement Soex Processing Germany

 www.soexgroup.de

SOEX Processing Germany GmbH is already using the Auto ID Middleware GRAIDWARE® developed by SIGMA Chemnitz GmbH for checking, storing and evaluating all RFID data. Now the expansion or renewal of the existing old clothes sorting system is pending. This is accompanied by the necessity to install additional RFID reading points for trolley identification. The order was preceded by a workshop conducted by SIGMA Chemnitz GmbH to analyse the task and adapt the system.

SOEX Processing Germany GmbH

The company based in Bitterfeld-Wolfen is part of SOEX, a world leader in the marketing and recycling of used textiles. At the location in Saxony-Anhalt, 700 of the approximately 1,200 employees working in six countries are employed. The employees of SOEX Processing Germany GmbH sort up to 300 tons of old textiles and shoes per day on an area of about 13 football fields. From this, 400 different second-hand articles are obtained, which find new customers in about 70 countries worldwide.

Our customer says so...

„We have been working together with SIGMA Chemnitz GmbH in the field of RFID technology for several years now. Our positive experiences have led us to rely on the know-how of SIGMA Chemnitz GmbH for our current project on trolley identification. We are looking forward to a successful realisation of our requirements.“

Marcus Burock, head of purchasing at SOEX Processing Germany GmbH
